

**RESOLUTION**  
**Council of Judges, Parker County, Texas**

**Whereas**, Parker County, Texas is a vibrant and growing county in Texas; and,

**Whereas**, Parker County has a quality of life second to none; and,

**Whereas**, one reason for said quality of life is quality law enforcement and respect for the law; and,

**Whereas**, the judicial system including all support agencies should operate efficiently to assure that respect for the law remains; and,

**Whereas**, in view of the significant growth in population in Parker County, there should be sufficient facilities for the courts and law enforcement; and

**Whereas**, current facilities are not adequate to accommodate the courts, litigants, law enforcement, and juries; and,

**Whereas**, a new and modern justice center is needed now; and,

**Whereas**, the Council of Judges supports the Commissioners Court of Parker in the planning and ultimate building of a justice center; and,

**Whereas**, said justice center should be large enough to accommodate all current and foreseeable future needs; and,

**Whereas**, land prices are currently at the lowest point in recent memory.

**Now therefore, be it RESOLVED by the Council of Judges of Parker County, Texas that:**

The Council of Judges of Parker County, Texas supports the immediate acquisition of at least 20 acres of land in Parker County for the building of a justice center at the earliest possible date and, further, said council will support the Parker County Commissioners Court in its efforts to do so.

Passed this 15<sup>th</sup> day of September, 2009, by affirmative and unanimous vote of the undersigned members:
