CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

Honorable Judge and Members of
The Commissioners' Court
Parker County, Texas

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Parker County, Texas, as of and for the year ended September 30, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Parker County, Texas, as of September 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 10, 2011, on our consideration of Parker County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of funding progress for the retirement plan be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of

inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Parker County's financial statements as a whole. The combining and budget statements and the statistical and supplementary information section are presented for purposes of additional analysis and are not required parts of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The combining and budget statements, the statistical and supplementary information section, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

PARKER COUNTY, TEXAS MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's discussion and analysis (MD&A) of Parker County's financial performance provides an overview of the County's financial activities for the fiscal year ended September 30, 2010. The MD&A should be read in conjunction with the accompanying financial statements and the notes to those financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the County exceeded liabilities at the close of the Fiscal Year 2010 by \$26,278,664 (*net assets*). Of this amount, \$1,297,125 is restricted for specific purposes and \$10,609,442 represents unrestricted net assets that may be used to meet the County's ongoing obligations to citizens and creditors. As required by GASB 34, net assets also reflect \$14,372,097 that is invested in capital assets net of related debt.
- In contrast to the government-wide statements, the fund statements report a combined fund balance at year-end of \$51,864,476; of which \$8,889,711 or 17% represents unreserved fund balance. The more significant components of unreserved fund balance are maintained in the Special Revenue funds and in the General fund as emergency reserves.
- The General fund unreserved fund balance of \$1,382,000 equals 4% of total General fund expenditures.
- The County's total debt decreased by a net amount of \$1,479,628 during the current fiscal year due to principal retirements offset by \$1,102,223 in capital leases issued for equipment acquisition.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's financial statements. The County's financial statements comprise four components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements and 4) other required supplementary information in addition to the basic financial statements themselves. This report also contains other supplementary information in addition to the basic financial statements.

The Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to private sector business. They present the financial picture of the County from an economic resource measurement focus using the accrual basis of accounting. These statements include all assets of the County as well as all liabilities (including long-term debt). Additionally, certain eliminations have occurred as prescribed by GASB Statement No. 34 in regards to interfund activity, payables, and receivables.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how net assets changed during the most recent fiscal year using the full accrual basis of accounting. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other business functions that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the County include general government; public safety; health and welfare; highways, roads and streets; law enforcement; judicial; recording; and tax assessing-collecting.

The government-wide financial statements can be found on pages 12 and 13 of this report.

PARKER COUNTY, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, however, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The County maintains fifty-six individual governmental funds (excluding fiduciary funds), fifty-one special revenue funds, three capital project funds, a debt service fund, and a general fund. Information is presented separately in the governmental fund balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Lateral Road Fund, and the Capital Projects 2009 Tax Road Bonds Fund which are classified as major funds. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for all of its governmental funds. Budgetary comparison statements (original versus final) have been provided for the major funds to demonstrate compliance with budget.

The governmental fund financial statements can be found on pages 14 through 16 of this report.

Proprietary funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among a government's various functions. The County's uses an internal service fund to account for its self-insurance programs. Because these activities benefit governmental functions, they have been included with governmental activities in the government-wide financial statements.

The proprietary fund financial statements can be found on pages 17 through 19 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The County's fiduciary activities are reported in a separate Statement of Fiduciary Assets and Liabilities. These activities are excluded from the County's other financial statements since the County cannot use these assets to finance its operations. The accounting used for fiduciary funds is much like that used for proprietary funds. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The fiduciary fund financial statement can be found on page 20 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22 through 38 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)**

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning budget comparisons and pension benefits. The required supplementary information can be found on pages 40 through 42 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$26,278,664 as of September 30, 2010. Also, the County's net assets include a prior period adjustment that resulted in restated amounts for 2009. See note 14 on page 38 for additional information.

Parker County's Net Assets

| | Governmental Activities | |
|---|-------------------------|----------------------|
| | 2010 | Restated 2009 |
| Current and other assets | \$ 60,284,329 | \$ 76,632,675 |

| Total Net Assets | <u>\$ 26,278,664</u> | <u>\$ 32,420,886</u> |

Investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment, and construction in progress) less any related debt used to acquire those assets that is still outstanding is \$14,372,097. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional \$1,297,125 of the County's net assets (5%) represents resources that are subject to external restrictions on how they may be used. All restricted assets of the County are being held for purposes established by state and local laws, future construction, and debt service requirements on the County's outstanding debt. The remaining balance of unrestricted net assets (\$10,609,442) may be used to meet the County's ongoing obligations to citizens and creditors.

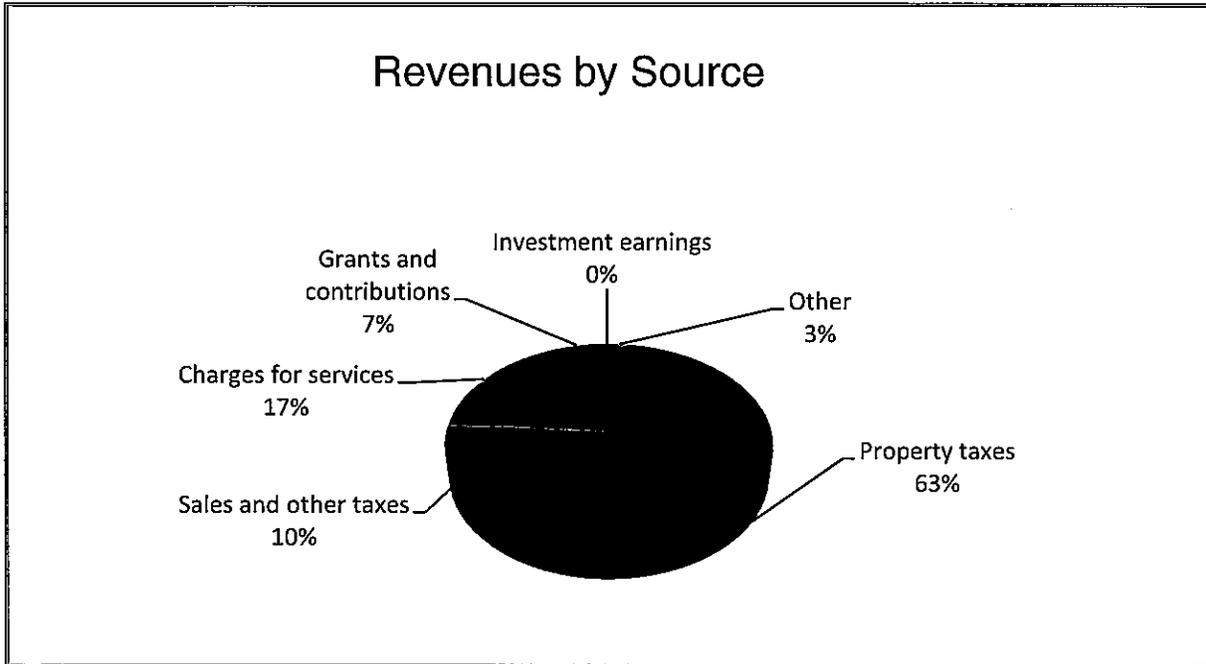

**PARKER COUNTY, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)**

The County's governmental activities decreased net assets by \$6,142,222 during the current fiscal year. The total cost of all governmental activities this year was \$61,604,080. The amount that our taxpayers paid for these activities through property taxes was \$34,873,763 or 57%.

**PARKER COUNTY, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)**

Key elements of the analysis of government-wide revenues and expenses reflect the following:

- Program revenues of \$13,329,450 equaled 22% of government expenses of \$61,604,080. As expected, general revenues (\$42,132,408) provided the remaining support and coverage for expenses.
- Over one-fourth of the expenses are highway, roads and streets (\$16,305,798) while this category provided 6% of total revenues.
- The second largest category of expenses is law enforcement (\$15,301,309) at 25% while it only provided about 4% of total revenues.
- Grant revenues and contributions comprised about 7% of total revenues.

FINANCIAL ANALYSIS OF GOVERNMENTAL FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The general government functions are reported in the General, Special Revenue, Debt Service, and Capital Project Funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's annual financing and budgeting requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$51,864,476, a decrease of \$17,045,341 in comparison with the prior year. Approximately \$8,889,711 or 17% of the fund balance represents unreserved fund balance, which is available for spending at the County's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to pay debt service (\$1,261,975) and to fund capital projects (\$41,712,790).

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the general fund was \$1,382,000, which is the total fund balance. As a measure of the general fund's liquidity, we compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents 4%, or slightly more than 14 days of total fund expenditures.

**PARKER COUNTY, TEXAS
MANAGEMENT'S DISCUSSION AND ANALYSIS – (Continued)**

The fund balance of the County's general fund decreased by \$342,906. Key factors in this decrease are as follows:

- Decrease in sales tax revenues, intergovernmental revenues and increases to expenditures for public safety, law enforcement, and judicial.

The debt service fund has a total fund balance of \$1,261,975, all of which is reserved for the payment of debt service. The net decrease in fund balance during the current year in the debt service funds was \$440,269. Total debt principal, interest and fiscal charges increased from the prior year primarily due to the payments on the 2009 Unlimited Tax Road Bonds.

The capital projects funds had a total fund balance of \$41,712,790, all of which is reserved for construction and improvements or acquisition of County-owned buildings and equipment.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original fiscal year 2010 budget was adopted in September 2009, with the total beginning general fund expenditures amounting to \$35,219,005, an increase of \$526,154 over the 2009 fiscal year final budgeted expenditures. The fiscal year 2010 budget increase was primarily due to an increase in buildings and grounds, non-departmental, fire protection, jail, sheriff administration and patrol, and county and district attorney expenditures.

In total, the original general fund budget for expenditures and the final general fund amended budget for expenditures were increased by \$116,633 from the original to the final budget. Most of this difference resulted from:

- A reduction of general government and public safety expenditures; and
- Increases in judicial and law enforcement expenditures.

Significant variations between the final budget and actual amounts include the following:

- Actual revenues were lower than budgeted by \$1,707,874 primarily due to the timing of fees of offices collections and an unanticipated decrease sales taxes; and
- Actual expenses were \$881,612 less than budgeted primarily due to lower costs of buildings and grounds, public safety, and non-departmental expenditures than anticipated.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets. The capital assets of the County are those assets (land, buildings and improvements, roads and bridges, office furnishings, transportation, road maintenance, fire fighting, emergency management and other equipment), which are used in the performance of the County's functions including current year expenditures for infrastructure assets. At September 30, 2010, net capital assets of the governmental activities totaled \$62,362,765. Depreciation on capital assets is recognized in the government-wide financial statements. Annual depreciation for buildings, improvements, infrastructure and machinery and equipment totaled \$9,201,246.

Long-term debt and capital leases. As of September 30, 2010, the County had unlimited tax road bonds, general obligation refunding bonds, certificates of obligation and tax notes outstanding of \$80,879,975. Capital lease proceeds were \$1,102,223 for the purchase of equipment for the precincts. Total capital leases payable were \$4,576,072.

The County's total property tax rate for 2009-10 was \$.37535 per \$100 assessed valuation, of which \$.05567 was for annual debt service.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The annual budget is developed to provide efficient, effective and economic uses of the County's resources, as well as, a means to accomplish the highest priority objectives. Through the budget, the County Commissioners set the direction of the County, allocate its resources and establish its priorities.

In considering the County budget for fiscal year 2011, the County Commissioners and management considered the following factors:

- The County, which is located near the Dallas/Fort Worth Metroplex, is expecting an increase in population, households, and retail sales, therefore sales tax revenues for the County are expected to slightly increase or at least remain stable.
- Property tax revenues are budgeted to increase because of the continued rise in certified values of real estate in this area as well as an increase in the debt service portion of the tax rate.
- Commercial and industrial growth and development within the County continue to increase the County's workforce and population.

Amounts reported for governmental activities in the statement of activities are different because:

| | |

| Net change in fund balances - total governmental funds | \$ (17,045,341) |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of capital assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation for County owned assets in the current year. | 9,366,693 |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | (248,830) |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the funds. | (152,057) |
| The issuance of long-term debt (e.g. bonds and capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | 1,466,292 |

NOTES TO FINANCIAL STATEMENTS

**PARKER COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Parker County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described below.

A. REPORTING ENTITY

The authority of county governments and their specific functions and responsibilities are created by and dependent upon laws and legal regulations of the Texas State Constitution V.A.C.S. Parker County, Texas (the County) performs all local government functions within its jurisdiction. The County is governed by an elected County Judge and four County Commissioners elected from individual precincts. The Judge and Commissioners form the governing body as provided by state statute. Various branches of the County government are led by duly elected officials. The Commissioners' Court has governance responsibilities over all activities related to the County. The County receives funding from local, state and federal government sources and must comply with the concomitant requirements of these funding source entities. The accompanying financial statements of the County present the financial position of the governmental activities and the respective changes in financial position. The County is not included in any other governmental "reporting entity".

There are no component units over which the County exercises significant controls or has oversight responsibility. The County is a general purpose government providing the following services to its citizens: public safety, health and welfare, public transportation through roads and bridges, law enforcement, judicial, recording, tax assessing-collecting, and general and financial administrative services.

The accounting and reporting framework and the more significant accounting principles and practices are discussed below. The remainder of the Notes is organized to provide explanations, including required disclosures, of the County's financial activities for the fiscal year ended September 30, 2010.

B. FINANCIAL STATEMENT PRESENTATION, MEASUREMENT FOCUS, BASIS OF ACCOUNTING

The financial and reporting policies of the County conform to accounting principles generally accepted in the United States of America as applicable to state and local governments. United States generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), which includes all statements and interpretations of the National Council on Governmental Accounting unless modified by the GASB, and those principles prescribed by the American Institute of Certified Public Accountants. The following are the more significant policies used by the County.

Government-wide financial statements

The government-wide financial statements include the statement of net assets and the statement of activities. Government-wide statements report, except for County fiduciary activity, information on all of the activities of the County. The effect of interfund transfers has been removed from the government-wide statements but continues to be reflected on the fund statements. Governmental activities are supported mainly by taxes and intergovernmental revenues.

The statement of activities reflects the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

**PARKER COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

These statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Major revenue types, which have been accrued, are community supervision fees, revenue from the investments, intergovernmental revenue and charges for services. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

When both restricted and unrestricted resources are available for use, it is county policy to use restricted resources first, then unrestricted resources as needed.

Governmental fund financial statements

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. The General Fund, the Lateral Road, and the Capital Projects 2009 Tax Roads Bond Fund meet criteria as *major governmental funds*. Each major fund is reported in a separate column in the fund financial statements. Non-major funds include other Special Revenue funds, Capital Projects funds and the Debt Service fund. The combined amounts for these funds are reflected in a single column in the fund Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances. Detailed statements for nonmajor funds are presented within Combining and Budget Statements.

Governmental fund financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Expenditures generally are recorded when a fund liability is incurred; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the liability has matured and payment is due. Capital asset acquisitions are reported as expenditures in governmental funds.

Proprietary fund financial statements are reported using the accrual basis of accounting. Under this method, revenue is recognized when earned and expenses are recognized at the time the liabilities are incurred. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary fund include the cost of contractual services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. Based on the accounting and reporting standards set forth in GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and other Governmental Entities that use Proprietary Fund Accounting*, the County has opted to apply only those accounting and reporting pronouncements issued by the GASB subsequent to November 30, 1989 as it pertains to the accounting for proprietary fund activity.

Fiduciary fund level financial statements include fiduciary funds which are classified into private purpose trust and agency funds and use the economic resources measurement focus and the accrual basis of accounting. The County has only agency funds which are used to account for assets held by the County as an agent for individuals, private organizations, other governments and other funds. Agency funds do not involve a formal trust agreement. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The County reports the following major governmental funds:

The General Fund is the general operating fund of the County and is always classified as a major fund. It is used to account for all financial resources except those required to be accounted for in another fund.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Lateral Road Fund is a special revenue fund used to account for the maintenance and construction of County roads and bridges. Financing is provided primarily by an annual property tax levy. Additional revenue is provided by a charge on each auto registration and from fines levied by the County.

Capital Projects 2009 Tax Road Bonds Fund is used to account for the proceeds of the Unlimited Tax Roads Bond – Series 2009 which were obtained for constructing, improving, extending, expanding, upgrading and / or developing macadamized, graveled, or paved roads in the County, right-of-way acquisition, utility relocation, traffic safety and operational improvements and other transportation related improvements, and payment of costs of issuance related to the bonds.

The County also reports the following major proprietary fund:

Internal Service Fund accounts for the group health insurance benefits provided to the County's departments on a cost reimbursement basis.

Additionally, the County reports the following fund types:

Special Revenue Funds are used to account for the proceeds of specific revenue sources which are legally restricted to finance particular functions or activities of the County.

Capital Project Funds are used to account for proceeds obtained for the purpose of County building improvements and equipment acquisition and costs associated capital projects.

The Debt Service Fund is used to account for the resources accumulated and payments made for principal and interest on long-term debt of the governmental funds.

Agency funds are used to account for assets held by the County as an agent for individuals, business, other governments and / or other funds.

Budget and Budgetary Accounting

The county follows these procedures in establishing budgetary data reflected in the financial statements:

- (A) In the event the Commissioners Court increases property taxes three percent or less, no public hearing is required. If the Court increases taxes more than three percent but less than eight percent, then a public hearing is required prior to final adoption. If the Court increases taxes more than eight percent, a public hearing is required and taxes are subject to a rollback petition and election.
- (B) Public hearings are conducted at the Parker County Courthouse and Courthouse Annex to obtain taxpayer comments.
- (C) Prior to October 1, the budget is legally enacted through adoption of an order by Commissioners Court.
- (D) Budgeted amounts may be transferred between line items of the budget within the same fund. Any amendments which alter the line items or total expenditures of any department must be approved by the Commissioners Court. There must be an emergency condition existing in order for the Court to increase the total budget.
- (E) Budgets for the various funds are adopted on a basis consistent with United States generally accepted accounting principles (GAAP), with the exception of tax revenues being reported on the cash basis.
- (F) Expenditures in excess of appropriations are required by state statutes to be reported down to the department level.
- (G) The budgeted amounts presented in these statements are as originally adopted, or as amended by, the Commissioners Court during the year ended September 30, 2010.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. ASSETS, LIABILITIES AND EQUITIES

Cash Equivalents

The County follows the practice of pooling cash and investments of all funds held by the County Treasurer, except when otherwise requested, in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. Balances in cash and pooled investments are available on a demand basis to each fund. Investments are shown on the balance sheet at cost, which approximate market.

For purposes of the statement of cash flows, the County considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

Capital Assets and Depreciation

Capital assets, which include land, buildings and improvements, office furnishings, road maintenance, transportation, fire fighting and other equipment, and infrastructure assets (e.g. roads and bridges) are reported in the government-wide financial statements. Capital assets are defined as assets with a cost of \$5,000 or more. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are depreciated using the straight line method over the following estimated useful lives:

| | |
|--------------------------------|---------------|
| Buildings and improvements | 10 - 40 years |
| Infrastructure | 20 years |
| Office furniture and equipment | 3 - 20 years |
| Road maintenance equipment | 3 - 10 years |
| Transportation equipment | 3 - 5 years |
| Fire fighting equipment | 5 years |
| Emergency management equipment | 5 years |
| Other equipment | 5 years |

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Encumbrances

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at the end of the fiscal year. Encumbrances outstanding at that time are cancelled and become available for future appropriation.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Upon new debt issuance, premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the debt.

In the fund financial statements, governmental fund types recognized debt premiums and discounts, as well as issuance costs during the current period. The face amount of debt issued is reported as other financing sources net of the applicable issuance costs, premium or discount.

NOTE 2: RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. The following is an explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets:

The governmental fund balance sheet includes reconciliation between fund balance for total governmental funds and net assets as reported in the government-wide statement of net assets. One element of that reconciliation explains "some liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds."

The details of this \$90,551,720 difference are as follows:

| | |
|--|-------------------------------|
| Bonds and tax notes payable: | \$ (80,879,975) |
| Less: deferred charge for issuance costs (to be amortized over life of debt) | 1,416,354 |
| Plus: premium on debt (to be amortized over life of debt) | (2,450,577) |
| Plus: accumulated accretion on capital appreciation bonds | (2,608,807) |
| Accrued interest payable | (604,381) |
| Capital lease payable | (4,576,072) |
| Compensated absences | <u>(848,262)</u> |
| Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities | <u><u>\$ (90,551,720)</u></u> |

B. The following is an explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities:

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation indicates that "governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$9,366,693 difference are as follows:

| | |
|--|----------------------------|
| Capital outlay | \$ 18,567,939 |
| Depreciation expense | <u>(9,201,246)</u> |
| Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities | <u><u>\$ 9,366,693</u></u> |

**NOTE 2: RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
(Continued)**

Another element of the reconciliation states "the issuance of long-term debt (e.g., bonds and capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities."

The details of this \$1,466,292 difference are as follows:

| | | |
|--|----------------------------|---------------------|
| Debt issued or incurred: | Capital leases | \$ (1,102,223) |
| Principal repayments : | Capital leases | 843,515 |
| | Tax notes | 1,505,000 |
| | Certificates of obligation | 65,000 |
| | Refunding bonds | 155,000 |
| | | <hr/> |
| Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities | | <u>\$ 1,466,292</u> |

Another element of the reconciliation states "some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the funds." The details of this \$152,057 difference are as follows:

| | |
|--|-------------------|
| Compensated absences | \$ (6,509) |
| Accrued interest expense | 144,257 |
| Allowance of miscellaneous receivables | 52,077 |
| Amortization of premium on debt | (115,630) |
| Amortization of issuance costs | 77,862 |
| | <hr/> |
| Net adjustment to decrease net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities | <u>\$ 152,057</u> |

NOTE 3: DEPOSITS AND INVESTMENTS

Chapter 2256 of the Texas Government Code (the Public Funds Investment Act) authorizes the County to invest its funds under a written investment policy (the "Investment Policy") that primarily emphasizes safety of principal, availability of liquidity to meet the County's obligations and market rate of return. The Investment Policy defines what constitutes the legal list of investments allowed under the policy, which excludes certain investment instruments allowed under chapter 2256 of the Texas Government Code.

The County's deposits and investments are invested pursuant to the Investment Policy, which is approved annually by Commissioners' Court. The Investment Policy includes a list of authorized investment instruments and a maximum allowable stated maturity of any individual investment. In addition it includes an "Investment Strategy" that specifically addresses each fund's investment options and describes the priorities of suitability of investment type, preservation and safety of principal, liquidity, marketability, diversification, yield and management of maturities.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 3: DEPOSITS AND INVESTMENTS (Continued)

The County is authorized to invest in the following investment instruments provided that they meet the guidelines of the Investment Policy:

1. Obligations of the United States or its instrumentalities;
2. Direct obligations of the State of Texas or its agencies and instrumentalities;
3. Collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed or insured by the State of Texas or the United States or its instrumentalities;
4. Other obligations, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States or its instrumentalities;
5. Obligations of states, agencies, counties, cities, and other political subdivisions of any state that are rated A or higher by a nationally recognized investment rating firm;
6. Certificates of deposit that are guaranteed or insured by the FDIC or are secured as to principal by obligations described Section 2256.009(a) of the Public Funds Investment Act or any other manner or amount provided by law for County deposits;
7. Fully collateralized repurchase agreements that have a defined termination date, are fully secured by obligations described in Section 2256.009(ax 1) of the Public Funds Investment Act, and are placed through a primary government securities dealer or a bank domiciled in the State of Texas;
8. Banker's acceptances with the remaining term of 270 days or less, in the short-term obligations of the accepting bank or its parent are rated at least A-1 or P-1, or the equivalent by at least one nationally recognized credit rating agency;
9. Commercial paper that is rated at least A-1 or P-1 or the equivalent by either (a) two nationally recognized credit rating agencies or (b) one nationally recognized credit rating agency if the paper is fully secured by an irrevocable letter of credit issued by a United States or state bank;
10. No-load money market mutual funds registered with the Securities and Exchange Commission (SEC) that have a dollar weighted average portfolio maturity of 90 days or less, and include in their investment objective the maintenance of a stable net asset value of \$1 for each share;
11. No-load mutual funds registered with the SEC, invested in obligations approved by the County that have an average weighted maturity of less than two years, continuously rated as to investment quality by at least one nationally recognized investment rating firm of not less than AAA or its equivalent, and conformed to the eligibility of investment pools to receive and invest funds of investing entities; and
12. Eligible investment pools.

As of September 30, 2010, the County had the following investments:

| | <u>Credit Rating</u> | <u>Market Value</u> | <u>% of Total</u> |
|--|--------------------------|----------------------|-------------------|
| DWS Scudder - Government Cash Institutional Shares Fund | A+ | \$ 8,395,500 | 15.46% |
| Federated - Government Obligations Fund | AAAm | 11,000,000 | 20.27% |
| Morgan Keegan - Federated Inv Government Obligations | AA | 13,000,000 | 23.96% |
| UBS Select Treasury Fund | A+ | 21,866,000 | 40.30% |
| Total Investments | | <u>\$ 54,261,500</u> | <u>100.00%</u> |

Interest Rate Risk – The County limits exposure to fair value losses arising from interest rates by not directly investing in securities with maturity dates that exceed 2 years from the date of purchase. At September 30, 2010, 100% of the County's portfolio had maturity dates less than one year.

**PARKER COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 3: DEPOSITS AND INVESTMENTS (continued)

Credit Risk – Investments are exposed to credit risk if the security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. As of September 30, 2010, the County's investments in DWS Scudder - Government Cash Institutional Shares Fund, Federated - Government Obligations Fund, UBS Select Treasury Fund, and Morgan Keegan - Federated Inv Government Obligations were rated by Standard and Poor's (see credit ratings above) and have an average weighted maturity of less than 90 days.

Concentration of Credit Risk - The County does not place a limit on the amount that may be invested. As of September 30, 2010, 100% of the County's investments were included in SEC regulated no-load money market mutual funds.

Custodial Credit Risk– Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the County's name. At September 30, 2010, the County's deposits were insured or collateralized with securities held by the County or by its agent in the County's name.

NOTE 4: PROPERTY TAX

Taxes are levied on October 1 in conformity with Subtitle E, Texas Property Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1. Property taxes attach as an enforceable lien as of January 1 to secure the payment of all taxes, penalties, and interest ultimately imposed. The Parker County Appraisal District assesses and collects property taxes for the County. The County is permitted by the Municipal Finance Law of the State of Texas to levy taxes up to \$1.20 per \$100 of appraised valuation for general services, permanent improvements, lateral road, and jury fund purposes other than the payment of principal and interest on long-term debt. A practical limitation on taxes levied on debt service is \$1.50 per \$100 of assessed valuation as established by the Attorney General of the State of Texas. The tax rate for the year ended September 30, 2010, excluding that portion budgeted for the retirement of long-term debt principal and interest was \$.3197 per \$100 valuation. The total tax rate for all purposes was \$.3754 per \$100 valuation. The County's general obligation refunding bonds require an annual tax levy sufficient to pay principal and interest on the bonds with allowances being made for delinquent taxes.

NOTE 5: DELINQUENT PROPERTY TAXES

At the governmental fund level, taxes are recognized as revenue when received. An account for estimated uncollectible taxes is established and the remaining balance is recorded as deferred income at year-end. The County's taxes on real property are a lien against such property until paid.

The following schedule details delinquent property taxes by fund.

| <u>Fund</u> | <u>Delinquent Taxes</u> | <u>Allowance</u> | <u>Deferred Revenue</u> |
|--------------|-----------------------------|---------------------|-----------------------------|
| General | \$ 1,203,694 | \$ (402,038) | \$ 801,656 |

| Other Governmental funds | Other Governmental funds | <u>19,847</u> | reimburse expenditures |
| Total transfers | | <u>\$ 1,042,106</u> | |

Transfers are generally used to transfer funds from the General fund to fund various programs and supplement grants and other special revenue funds.

NOTE 8: ACCUMULATED UNPAID VACATION AND SICK LEAVE

County policy allows the accrual of vacation, compensatory time, and sick pay benefits for all employees other than elected officials. The expense of the benefits is recognized when incurred. Vacation and compensatory pay is paid upon termination if the employee gives two weeks notice or is terminated by the County. Sick pay is not paid upon termination for any reason. The liability for accrued vacation and compensatory pay is included below with general long-term debt. No liability has been recorded for sick pay since it is non-vesting. At September 30, 2010 the value of accumulated vacation and compensatory benefits amounted to \$848,262.

NOTE 9: LONG-TERM DEBT AND CAPITAL LEASES

NOTE 10: RETIREMENT PLAN

Plan Description

The County provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 602 nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the Commissioners Court within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

**PARKER COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 10: RETIREMENT PLAN (Continued)

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the Commissioners Court within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the County's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Funding Policy

The County has elected the annually determined contribution rate (Variable-Rate) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. The County contributed using the actuarially determined rate of 10.18% for the months of the accounting year in 2009, and 10.79% for the months of the accounting year in 2010.

The contribution rate payable by the employee members for calendar years 2010 and 2009 is the rate of 7%, adopted by Commissioners Court. The employee contribution rate and the employer contribution rate may be changed by the Commissioners Court within the options available in the TCDRS Act.

Annual Pension Cost

The required contribution was determined as part of the December 31, 2009 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2009 included (a) 8.0 percent investment rate of return (net of administrative expenses), and (b) projected salary increases of 5.4 percent. Both (a) and (b) included an inflation component of 3.5 percent. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a ten-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at December 31, 2009 was 20 years.

Funded Status and Funding Progress

As of December 31, 2009, the most recent actuarial valuation date, the plan was 83.27% funded. The actuarial accrued liability for benefits was \$45,982,066, and the actuarial value of assets was \$38,291,168, resulting in an unfunded actuarial accrued liability (UAAL) of \$7,690,898. The covered payroll (annual payroll of active employees covered by the plan) was \$19,679,211 and the ratio of the UAAL to the covered payroll was 39.08%.

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

NOTE 11: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description:

The County participates in a cost-sharing multiple-employer defined-benefit group-term life insurance plan operated by the Texas County and District Retirement System (TCDRS.) This plan is referred to as the Optional Group Term Life Fund (OGTLF). This optional plan provides group term life insurance coverage to current eligible employees and, if elected by employers, to retired employees. The coverage provided to retired employees is a postemployment benefit other than pension benefits (OPEB). Retired employees are insured for \$5,000.

The OGTLF is a separate trust administered by TCDRS board of trustees. TCDRS issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for the OGTLF. This report may be obtained by writing to the Texas County and District Retirement System, P.O. Box 2034, Austin, TX 78768-2034, or by calling 800-823-7782. TCDRS' CAFR is also available at www.tcdrs.org.

**PARKER COUNTY, TEXAS
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2010**

NOTE 11: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Funding Policy:

Each participating employer contributes to the OGTLF at a contractually required rate. An annual actuarial valuation is performed and the contractual rate is determined using the unit credit method for providing one-year term life insurance. The County contributions to the OGTLF for the years ended September 30, 2010, 2009, and 2008 were \$82,517, \$73,594, and \$61,903, respectively, which equaled the contractually required contributions each year.

NOTE 12: COMMITMENTS AND CONTINGENCIES

The County participates in several programs that are subject to audit by various State and Federal Agencies. These programs have complex compliance requirements. Should State or Federal auditors discover areas of material noncompliance, those County funds may be subject to refund if so determined by administrative audit review.

The County is a defendant in various lawsuits. Although the outcome of the litigation is not presently determinable, it is the opinion of the County's legal counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

The County has entered into various construction commitments. Such contracts include contracts for improvements to roads and bridges within the County. Several of these contracts were in progress but not completed as of September 30, 2010. The total contractual commitments outstanding as of September 30, 2010 aggregated approximately \$529,524. The County has sufficient funds available to cover these commitments.

NOTE 13: RISK MANAGEMENT

The County is exposed to various risks of loss related to torts, theft of; damage to and destruction of assets; errors and omissions; and natural disasters. To reduce its risk of exposure in these areas, the County is a member of the Texas Association of Counties Risk Pool for liability, property, and workers' compensation. The pool is a public entity risk pool and was created based on the general objectives of formulating, developing and administering a program of self-insurance for the membership and obtaining lower costs for coverages. The pool coverage is offered through interlocal agreements between the Pool and counties. The pool has the power to establish fees, contributions and methods for establishing rates. Under contract with the pool, the Association provides for such services as claims administration and management, underwriting, loss control services and training, and financial reporting for its members. The Association submits sealed bids to counties during the bid process. The Pool is governed by a Board of Directors made up of employees or officials of counties which are members of the pool. Member counties make contributions to the pool, and the pool provides insurance coverage and applicable reinsurance or stop loss coverage. The insurance policies carry various deductibles and aggregate maximum loss totals. The by-laws of the pool are detailed in a separate document which can be obtained from the Texas Association of Counties, 1210 San Antonio Street, Austin, TX 78701.

There have been no significant reductions in coverage from the coverage in the past fiscal year, and there have been no settlements exceeding insurance coverage in the current or past three fiscal years.

NOTE 14: PRIOR PERIOD ADJUSTMENT

The \$351,299 prior period adjustment on the statement of activities is related to capital assets. The adjustment was the result of expensing infrastructure rather than capitalizing it as construction in progress in fiscal year 2009. See Note 6 for restated capital asset amounts as of October 1, 2009.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Judge and Members of
the Commissioners' Court
Parker County, Texas

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Parker County, Texas, as of and for the year ended September 30, 2010, which collectively comprise the County's basic financial statements and have issued our report thereon dated May 10, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Parker County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Parker County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Parker County, Texas, in a separate letter dated May 10, 2011.

This report is intended solely for the information and use of management, Commissioners' Court, others within the entity, and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN
ACCORDANCE WITH OMB CIRCULAR A-133**

Honorable Judge and Members of
the Commissioners' Court
Parker County, Texas

Compliance

We have audited Parker County, Texas' compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2010. Parker County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Parker County's management. Our responsibility is to express an opinion on Parker County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Parker County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Parker County's compliance with those requirements.

In our opinion, Parker County, Texas, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2010.

Internal Control Over Compliance

Management of Parker County, Texas, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Parker County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Commissioners' Court, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
